IMMUNITY

## IMMUNITY

### ■ VITAMIN C + ZINC

the synergistic action of Vitamin C and Zinc enhances the body's ability to fight off infections, reduce oxidative stress, and maintain a healthy immune system. This combined effect contributes to overall improved health and well-being.

### ■ VITAMIN D + MAGNESIUM

Vitamin D and Magnesium work synergistically to modulate immune responses. Vitamin D enhances both innate and adaptive immunity, while Magnesium controls inflammation and supports immune cell function. Together, they promote a balanced and effective immune system.

### ■ MAGNESIUM + ZINC: CELLULAR SUPPORT DUO

Together, magnesium and zinc help power DNA synthesis, support healthy cell division, and boost immune function—key elements for maintaining strong, resilient cells and overall well-being.
